

Interim Report

Consolidated financial statements at 30 June 2016

Letter from the Chairman and CEO

During the first half of 2016, the global economy was again supported by highly expansionary monetary policies, while the recent Brexit referendum – the actual impact of which remains to be seen – has broadly weakened the growth outlook and fueled uncertainty on the financial markets.

The consensus is nevertheless that economic activity in Switzerland as a whole, and Vaud Canton in particular, will improve compared to 2015. The latest estimates from the CREA Institute put growth in Vaud at 1.5% this year and 1.9% next year, while Switzerland's State Secretariat for Economic Affairs (SECO) projects 1.2% growth nationwide in 2016 and 1.6% in 2017.

Our solid 2015 results belied an extremely difficult business environment of persistently negative interest rates and highly uncertain financial markets, a situation which has continued into 2016. Although BCV's revenue base is more diversified than that of any other Swiss cantonal bank, our H1 2016 revenues declined 6% to CHF 494m. Thanks to effective cost control and lower new provisioning needs, operating profit receded by only 2%, to CHF 198m. Net profit also declined (-13%) versus the year-earlier figure, which was boosted by non-recurring items, but remained strong at CHF 157m. The H1 2016 bottom line was, in fact, slightly up on H1 2014 and H1 2013.

In addition to a number of major projects initiated in response to regulatory changes, we are moving ahead with our strategic plan through a series of business initiatives. We have improved and expanded our digital banking services, increasing log-in security with the introduction of BCV SmartID, making online payments safer and adding new features such as a personal finance manager and BCV Paymit, a P2P mobile payment solution. Further innovations are in the pipeline and will be rolled out before the end of the year. In addition, we have completely overhauled the process for approving personal loans: once the process is automated, we will be able to grant loans even more quickly and efficiently. The new process is currently being tested in two regions, with full roll-out scheduled for this fall.

Pascal Kiener
CEO

Olivier Steimer
Chairman of the Board of Directors

At our Annual Meeting on 21 April, our shareholders approved all items on the agenda. Jack Clemons and Peter Ochsner were appointed to the Board of Directors, replacing Pierre Lamunière and Stefan Bachmann. Shareholders also approved the proposed dividend of CHF 33 per share for a total payout of CHF 284m, which is higher than last year. Since 2008, we have distributed more than CHF 2.5bn, a figure that equates to three-quarters of our shareholders' equity. More recently, we announced the appointment of Christian Meixenberger to our Executive Board as head of the Business Support Division; he will replace Aimé Achard, who will retire. Mr. Meixenberger will start in his new role on 1 January 2017.

BCV's financial solidity is recognized by the main rating agencies, which continue to rank us among the world's safest banks. In May, Moody's reaffirmed its Aa2 long-term rating with a stable outlook. Standard & Poor's has maintained its AA rating on BCV since 2011.

We wish to thank our shareholders for their loyalty and our customers who, through their unfailing trust, inspire us to make BCV into a better bank. We are also grateful to our employees for their hard work and commitment to delivering impeccable customer service.

Business sector review

Retail Banking

Firm cost control

Retail Banking's mortgage book grew 1% to CHF 7.7bn in a slowing real-estate market. Savings accounts and other deposits fell CHF 497m to CHF 7.9bn following the end of the Bank's online brokerage partnership with PostFinance. Revenue was stable at CHF 87m, while operating profit rose 7% to CHF 11m thanks to rigorous cost control.

Operating profit (CHF millions)	11.1	10.3
Cost/income ratio (excluding goodwill amortization and write-downs)	85%	86%
ROE (based on net profit)	8.5%	8.0%
Headcount	385	380

2015 figures were adjusted to facilitate like-for-like comparison

Corporate Banking

Pick-up in business volumes

Lending and off-balance-sheet commitments were up 2% to CHF 15.2bn, while deposits shrank 5% to CHF 7.8bn and experienced high volatility against a backdrop of persistently low interest rates. The SME segment continued to grow, with loans up 0.3% and deposits up 4%. The Large Corporates segment also saw a slight upturn in business, with loans and off-balance-sheet commitments up 4%. In Trade Finance, business picked up after several lackluster reporting periods; loans and off-balance-sheet commitments expanded 11%. Corporate Banking revenues as a whole grew 2% to CHF 119m and operating profit rose 3% to CHF 66m.

Headcount	184	187

2015 figures were adjusted to facilitate like-for-like comparison

Wealth Management

Slowdown in customer trading

Assets under management were unchanged at CHF 68bn in spite of the bearish market climate. Inflows in the onshore business offset net outflows on the offshore front. Clients have become much more cautious because of the market uncertainty following the Brexit vote. Although Wealth Management's mortgage book rose a further 2% to CHF 7.3bn, revenues contracted 4% to CHF 160m and operating profit fell 7% to CHF 49m.

Trading

Back to more typical levels

Forex market volatility and trading volumes surged for several weeks last year after the Swiss National Bank's decision in January to drop the EUR/CHF floor rate. However, exchange-rate fluctuations largely returned to normal in the first half of 2016. Trading revenues declined 8% but remained solid at CHF 32m.

2015 figures were adjusted to facilitate like-for-like comparison

Consolidated financial statements at 30 June 2016

H1 2016 operating profit stable in a challenging environment

In a challenging environment, BCV Group's H1 2016 operating profit remained stable at CHF 198m. Revenues decreased by 6% to CHF 494m as interest rates stayed negative, financial markets were lackluster and net trading income fell back from the record levels seen in H1 2015. As expected, net profit also came in below the exceptionally high H1 2015 figure, which was pushed up by non-recurring items relating to the sale of the Bank's stake in Swisscanto. At CHF 157m (-13%), the bottom line nevertheless remained robust and was in fact slightly above the H1 2014 and H1 2013 figures.

Revenues down in a difficult environment

Total revenues fell 6% year on year to CHF 494m. In an environment marked by continued negative interest rates, which the Bank does not pass on to the great majority of its customers, net interest income before loan impairment charges/reversals dropped 2% to CHF 242m. With loan impairment reversals lower than in H1 2015, net interest income dropped 5% to CHF 243m. Commission and fee income decreased by 8% to CHF 158m, reflecting a contraction in client trading volumes caused by lackluster financial markets. Following a spike in business in January and February 2015 – after the Swiss National Bank (SNB)

dropped the EUR/CHF currency floor – net trading income returned to a more typical level of CHF 68m (-14%). Other ordinary income rose 19% to CHF 26m.

Operating profit stable at CHF 198m thanks to firm cost control and lower new provisioning needs

Operating expenses were unchanged at CHF 258m. Personnel costs edged up 1% to CHF 171m, while other operating expenses fell 1% to CHF 87m. Depreciation and amortization decreased 4% to CHF 37m, and other provisions and losses came in at CHF 1m, compared with CHF 27m in H1 2015. At CHF 198m, operating profit was down just 2% from H1 2015 but up 1% from H1 2014, attesting to the Group's earnings stability.

Net profit of CHF 157m

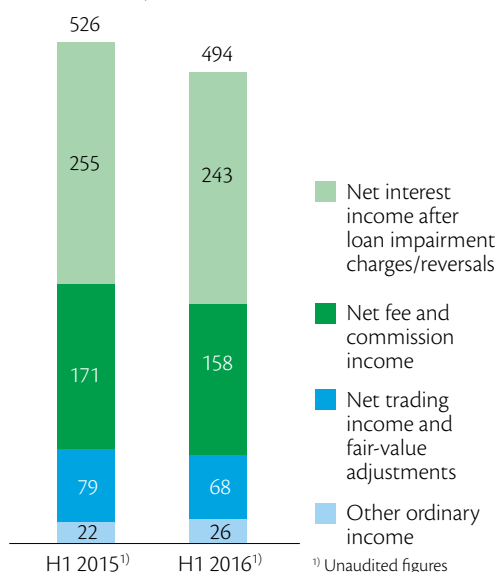

As expected, extraordinary income declined CHF 27m versus the 2015 figure, which included the proceeds from the sale of the Bank's stake in Swisscanto. Net profit nevertheless came in at a robust CHF 157m, down 13% on H1 2015 but slightly up on H1 2014 and H1 2013.

Growth in the balance sheet

Total assets expanded 3% to CHF 44.7bn. Cash and cash equivalents, which mainly comprise SNB sight deposits, totaled CHF 7.2bn (+4%). Mortgage lending rose 1%, or CHF 239m, to CHF 24.8bn. Other loans fell 5% to CHF 4.7bn as part of the Bank's treasury management activities.

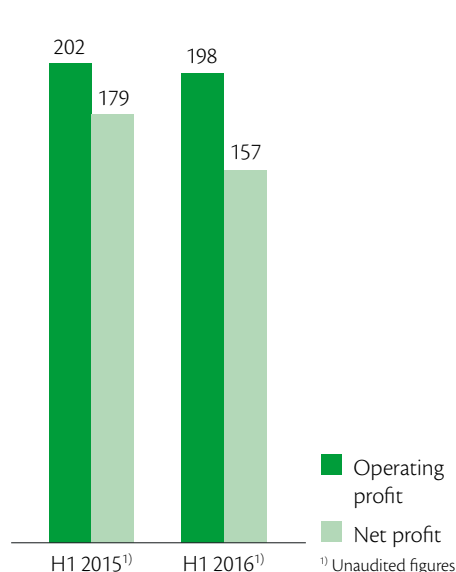

Revenues

In CHF millions, rounded

Operating and net profit

in CHF millions, rounded

On the liabilities side, customer savings and investment accounts declined 2%, or CHF 459m, to CHF 28.4bn, essentially because the Bank's online brokerage partnership with PostFinance came to an end.

Stable AuM

The Group's assets under management were stable at CHF 87.4bn (-1%). An inflow of onshore funds (+CHF 401m) offset the expected outflow of offshore funds (-CHF 399m).

CHF 284m paid out to shareholders

In accordance with its distribution policy, BCV returned CHF 33 per share to its shareholders in April – an increase of CHF 1 per share on previous distributions – for a total payout of CHF 284m.

Solid financial position

The Bank's CET1 capital ratio was 16.9% and shareholders' equity amounted to CHF 3.3bn, attesting to BCV's financial solidity. Rating agency Moody's reaffirmed the Aa2 rating (with a stable outlook) awarded to BCV in 2015.

New head of the Business Support Division

BCV's Board of Directors appointed Christian Meixenberger to the Bank's Executive Board as head of the Business Support Division. Mr. Meixenberger holds an engineering degree and has broad expertise in banking technology and back-office operations. He is currently a

member of the Executive Board and head of the Services Division of Banque Cantonale de Fribourg. He is scheduled to begin at BCV on 1 January 2017 and will replace Aimé Achard, who is taking his retirement.

Outlook

Barring a significant deterioration in the financial markets and/or the overall economic situation, FY 2016 results are expected to be in line with those recorded in the first half.

BCV Group

Abridged notes to the financial statements

Company name, legal status and head office

Banque Cantonale Vaudoise (BCV) was founded on 19 December 1845 by the Vaud Cantonal Parliament as a société anonyme de droit public (i.e., a corporation organized under public law). Its legal status is defined in the Cantonal Act Governing the Organization of Banque Cantonale Vaudoise (LBCV) of 20 June 1995, and its head office is in Lausanne.

Overview of operations and scope of consolidation

BCV operates as a full-service bank with a community focus. Its corporate mandate is to contribute to the economic development of its home region, the Canton of Vaud.

It offers a full range of services in retail banking, wealth management, corporate banking and trading. Along with its traditional areas of business (savings & loans and wealth management), BCV engages in large-corporate financing and selected trade-financing operations in commodities (primarily softs and metals). It offers a broad portfolio of financial-market services, including equity and derivatives trading and fixed-income instruments. The Bank is also active in foreign-exchange trading and in developing and issuing structured products.

BCV is the parent company of a banking and financial group. At 30 June 2016, in addition to the parent company, BCV Group comprised the private bank Piguet Galland & Cie SA and two fund management firms, Gérifonds SA and GEP SA (Société pour la gestion de placements collectifs). The Bank also has a branch in Guernsey (Banque Cantonale Vaudoise Guernsey Branch), which is active in structured products and fiduciary investments.

The scope of consolidation did not change relative to end-2015.

Basis of preparation of consolidated financial statements

The consolidated financial statements of BCV Group are prepared in accordance with the Swiss Federal Act of 8 November 1934 on Banks and Savings Institutions, the corresponding Ordinance of 30 April 2014 and the Swiss Accounting Rules for Banks, Securities Dealers, Financial Groups and Conglomerates of 27 March 2014 (FINMA Circular 2015/1). The financial statements give a true and fair view of the assets, financial position and results of BCV Group. The interim accounts have been drawn up in accordance with the same rules, principles and structure as the year-end accounts.

The accounting principles for the consolidated financial statements can be found on pages 108 to 114 of the 2015 Annual Report.

Changes to accounting principles

No changes were made to the accounting principles in H1 2016.

Following the introduction of new accounting rules for banks at the end of 2015, H1 2015 figures have been adjusted to facilitate like-for-like comparison.

Factors that affected the Group's financial situation, and extraordinary income

There were no factors that had a significant impact on the Group's financial situation in H1 2016.

Extraordinary income amounted to CHF 1 million in H1 2016, down from CHF 28 million in H1 2015. The H1 2015 figure was pushed up by the proceeds from the sale of the Bank's stake in Swisscanto.

Events taking place after the closing date

As at 17 August 2016, when the writing of this interim report was completed, the Group was not aware of any event liable to have a material influence on the Group's financial statements.

The BCV share

The Brexit referendum weighed heavily on European stock markets in the first half of 2016. Uncertainty grew as the Leave campaign gathered momentum and eventually won, sending the markets lower. The SMI lost 9% in the first six months of 2016, the CAC40 shed 8.6%, the DAX fell 9%, and the STOXX Europe 600 dropped 10.3%. The exact consequences of Brexit are still hard to quantify, but uncertainty will remain high and investors cautious for some time.

The BCV share held up well in the first half, gaining 2.5% despite a dividend payout of CHF 33 per share, resulting in a dividend yield of 5.2%. That puts total shareholder return at 7.7% for H1 2016 – one of the highest in the Swiss banking industry. And with an average daily trading volume of CHF 4.2m, the BCV share's liquidity increased over last year.

Our solid financial position and stable earnings are recognized by both Standard & Poor's and Moody's, with ratings of AA and Aa2, respectively – both with a stable outlook. That makes BCV one of the world's top-rated banks without a government guarantee.

Total shareholder return¹⁾

¹⁾ Stockmarket performance over the period plus dividends and capital distributions
