Consolidated financial statements at 30 June 2019

## Letter from the Chairman and the CEO

After losing some momentum in 2018, global economic growth stabilized in the first half of this year. However, factors including the US-China trade war, geopolitical tensions in several regions, sluggish growth in the eurozone, and the ongoing Brexit discussions continued to pose a threat and kept visibility low going forward. Swiss economic institutes have thus revised down their forecasts for Vaud GDP growth to 1.6% for 2019 and 1.5% for 2020. The forecast for Switzerland as a whole is 1.4% for 2019 and 2020.

Against this backdrop, our first-half results were very solid in spite of the ongoing negative-interest-rate environment. Volumes grew across our four main business lines. Total revenues were up 2% year on year to CHF 502m, and operating profit rose 5% to CHF 209m. Consolidated net profit came in at CHF 182.4m, spurred by the rise in operating profit and the new lower corporate tax rate in Vaud Canton, of 13.8%, which took effect on 1 January 2019. This marked our second-highest H1 net profit in the past ten years, exceeded only by the H1 2018 figure which was driven up by a non-recurring gain of CHF 34m on a real-estate disposal.

Our financial strength was once again recognized by the two main agencies that rate BCV. Standard & Poor's and Moody's reaffirmed their credit ratings of AA and Aa2, respectively, both with a stable outlook. BCV is therefore one of the best rated banks in the world without an explicit government guarantee.

On 1 July, we became a signatory to the United Nations Principles for Responsible Investment (UNPRI). This formalizes our commitment to economically, environmentally, and socially sustainable development – principles that have guided our work for many years now – and will help us more effectively communicate our strategy in that area.

**Jacques de Watteville**  
Chairman of the Board of Directors

**Pascal Kiener**  
CEO

At our Annual Shareholders' Meeting in May, BCV shareholders approved all items on the agenda by a large majority. They accepted the Board of Directors' recommendation to increase the dividend by CHF 2 to CHF 35 per share. This represents a dividend yield of 4.7% based on the 2018 closing share price. Since 2008, we have paid out close to CHF 3.5bn to our shareholders, equivalent to over half of our current market capitalization.

Finally, we are pleased to report that BCV is the most recommended bank in Vaud, according to a 2018 survey conducted by LINK Institute, an independent market research firm. This type of recognition means a lot to us, since high-quality customer service is a cornerstone of our business strategy. We are grateful to all our customers and shareholders for their continued trust and loyalty. On behalf of the Board of Directors and the Executive Board, we would also like to thank each and every BCV employee for their hard work and dedication.

## Business sector review

### Retail Banking

#### Continued growth and firm cost control

During the first half of the year, Retail Banking launched two ad campaigns aimed at families and young people in Vaud, both of which were highly successful in attracting new customers. The sector is also working to continually improve its services, with a particular focus on digital banking.

Retail banking's business volumes continued to expand steadily over the first half: the mortgage book grew 1%, passing the CHF 8bn mark to reach CHF 8.1bn, and savings accounts and other deposits were up 5% to CHF 8.9bn.

Revenues remained steady year on year at CHF 84m (+0.4%). Operating profit, however, jumped 30% to CHF 16m due to a decline in operating costs coupled with a change in indirect costing.

### Corporate Banking

#### Results still strong across all segments

The Vaud economy is still feeling the effects of a slowdown in global growth, but is being underpinned by a firm domestic market. The latest economic forecasts point to continuing resilience, with the Canton's GDP growth expected to come in at 1.6% for 2019 and 1.5% for 2020. In this climate, Corporate Banking business volumes continued to expand in all three segments. Total lending and off-balance-sheet commitments were up 2% to CHF 17.6bn, while deposits declined 9% to CHF 8.7bn due to stricter application of negative interest rates to some large customers.

The SME segment grew further, with a 3% increase in lending and off-balance-sheet commitments and a 3% rise in deposits. In the Large Corporates segment, lending and off-balance-sheet commitments remained flat (+0.5%), while deposits fell 22% as a result of stricter application of negative interest rates. Trade Finance posted a 9% year-on-year increase in average transaction volumes, maintaining the high levels achieved in the second half of 2018.

Corporate Banking revenues as a whole climbed 1% to CHF 134m, and operating profit also rose 1% to CHF 78m.

## Wealth Management

### Growth in assets under management

Assets under management grew 8% to CHF 69.7bn during the first half, driven by buoyant financial markets as well as new money inflows from institutional and onshore private banking clients. There were very limited outflows from the offshore wealth-management business.

Wealth Management revenues held steady at a solid CHF 179m (0%), and operating profit rose 3% to CHF 67m.

## Trading

### Other segments offset lower volumes in forex

Forex trading volumes were down versus the year-earlier period, but this was offset by higher volumes in the equities, bonds, fixed income, and structured products segments. Nevertheless, forex trading still accounts for 60% of the sector's revenues.

Trading revenues as a whole came in at CHF 25m, up 2% from CHF 24m in H1 2018. Operating profit stood at CHF 10m, versus CHF 9m a year earlier (+10%).

## Consolidated financial statements at 30 June 2019 (Unaudited)

### BCV Group H1 2019 operating profit up 5%

BCV Group delivered very solid H1 results despite the ongoing negative-interest-rate environment. Revenues were up 2% to CHF 502m, and operating profit rose 5% to CHF 209m. At CHF 182m, net profit was just 3% off the year-earlier figure despite a CHF 34m non-recurring gain in H1 2018. The effect of this non-recurring gain was mostly offset by higher operating profit and lower tax expense in H1 2019.

### Revenues up

Total BCV Group revenues were up 2% year on year to CHF 502m. Net interest income rose 4% to CHF 253m. Fee and commission income increased 1% to CHF 161m. Net trading income, which derives mainly from client forex trading activities, totaled CHF 60m (–9%). Other ordinary income amounted to CHF 28m (+9%).

### Operating profit at CHF 209m

Operating expenses were stable at CHF 255m. A 1% increase in personnel costs, to CHF 171m, was offset by a 1% reduction in other operating expenses, which stood at CHF 84m. Depreciation and amortization was flat at CHF 36m. Operating profit rose by a solid 5% to CHF 209m.

### Net profit at CHF 182m

At CHF 182m, net profit was just 3% off the year-earlier figure despite a CHF 34m non-recurring gain in H1 2018 resulting from a non-core real estate disposal. The effect of this non-recurring gain was mostly offset by higher operating profit and lower tax expense following the reduction in Vaud Canton's corporate tax rates.

### Slight uptick in lending and stable deposits

Total assets amounted to CHF 47.1bn (–2%). Cash and cash equivalents, which mainly comprise SNB deposits, totaled CHF 7.7bn (–6%). Mortgage lending rose 1.2%, or CHF 319m, to CHF 26.4bn. Other loans increased 6% to CHF 6.0bn, driven by solid momentum in corporate banking volumes across all segments.

On the liabilities side, customer deposits were stable at CHF 31.3bn. Personal banking and SME deposits rose, while large corporate and institutional deposits fell.

### Increase in AuM

The Group's assets under management expanded 6% to CHF 92.8bn, and net new money totaled CHF 757m. Net new money was composed mainly of assets from onshore personal banking, SME, and institutional clients.

### CHF 301m paid out to shareholders

In accordance with its dividend policy, BCV returned CHF 35 per share to its shareholders in May, for a total payout of CHF 301m. The payout was up CHF 2 per share on the prior year and represents a total dividend yield of 4.7% based on BCV's 2018 closing share price.

### Solid financial position

The Bank's total capital ratio was 16.8% at 30 June 2019 and shareholders' equity amounted to CHF 3.4bn, attesting to BCV's financial solidity. In the first half of the year, Standard & Poor's once again reaffirmed the AA rating with a stable outlook it assigned to BCV in 2011, and Moody's maintained its Aa2 rating, also with a stable outlook, first awarded in 2015.

### Outlook

Barring a significant deterioration in the financial markets and/or the overall economic situation, FY 2019 results are expected to trend along the same lines as in prior years.

## Abridged notes to the financial statements

### Company name, legal status and head office

Banque Cantonale Vaudoise (BCV) was founded on 19 December 1845 by the Vaud Cantonal Parliament as a société anonyme de droit public (i.e., a corporation organized under public law). Its legal status is defined in the Cantonal Act Governing the Organization of Banque Cantonale Vaudoise (LBCV) of 20 June 1995, and its head office is in Lausanne.

### Overview of operations and scope of consolidation

BCV operates as a full-service bank with a community focus. Its corporate mandate is to contribute to the economic development of its home region, the Canton of Vaud.

It offers a full range of services in retail banking, wealth management, corporate banking and trading. Along with its traditional areas of business (savings & loans and wealth management), BCV engages in large-corporate financing and selected trade-financing operations in commodities (primarily softs and metals). It offers a broad portfolio of financial-market services, including equity and derivatives trading and fixed-income instruments. The Bank is also active in foreign-exchange trading and in developing and issuing structured products.

BCV is the parent company of a banking and financial group. At 30 June 2019, in addition to the parent company, BCV Group comprised the private bank Piguet Galland & Cie SA and two fund management firms, Gérifonds SA and GEP SA (Société pour la gestion de placements collectifs). The Bank also has a branch in Guernsey (Banque Cantonale Vaudoise Guernsey Branch), which is active in structured products and fiduciary investments.

The scope of consolidation did not change relative to end-2018.

### Basis of preparation of consolidated financial statements

BCV Group's consolidated financial statements are prepared in accordance with the Swiss Federal Act of 8 November 1934 on Banks and Savings Institutions, the corresponding Ordinance of 30 April 2014 and the Swiss Accounting Rules for Banks, Securities Dealers, Financial Groups and Conglomerates of 27 March 2014 (FINMA Circular 2015/1). The financial statements give a true and fair view of the assets, financial position and results of BCV Group. The interim accounts have been drawn up in accordance with the same rules, principles and structure as the year-end accounts.

The accounting principles for the consolidated financial statements can be found on pages 118 to 124 of the 2018 Annual Report.

### Changes to accounting principles

No changes were made to the accounting principles in H1 2019.

### Factors that affected the Group's financial situation, and extraordinary income

There were no factors that had a significant impact on the Group's financial situation in H1 2019.

No extraordinary income of a material amount was recorded in H1 2019.

### Events taking place after the closing date

As at 21 August 2019, when this interim report was completed, the Group was not aware of any event liable to have a material influence on the Group's H1 2019 financial statements.

## The BCV share

Most stock markets rallied in the first half of 2019 after correcting in December 2018, when heightened uncertainty temporarily sparked fears of a recession. The SMI gained 17.4% in H1 2019 and then went on to reach an all-time high in early July. All other European indices also ended the period in positive territory: the STOXX Europe 600 was up 14.0%, the DAX rose 17.4%, and the CAC40 climbed 17.1%. US indices posted similar gains, with the Dow Jones increasing by 14.0% and the S&P 500 by 17.3%. The Nasdaq recorded the sharpest rise, adding 21.2%. The upward trends in stock markets were more uneven in the rest of the world: while the Shanghai Exchange climbed 19.4%, the Nikkei rose by just 6.3% and the MSCI Emerging Markets Index by just 9.2%.

The BCV share ended the first half up 2.6%. This share-price appreciation, coupled with the dividend of CHF 35 per share, brought the BCV share's total return to 7.3% at end-June.

BCV remains financially solid, as reflected in the Bank's Standard & Poor's and Moody's ratings of AA and Aa2, respectively. Both ratings were reaffirmed with a stable outlook, meaning BCV is one of the world's top-rated banks.
