

BCV AT A GLANCE – 2009

Overview of BCV

Our legal status

Banque Cantonale Vaudoise (BCV) was founded on 19 December 1845 by the Vaud Cantonal Parliament (Grand Conseil vaudois) as a société anonyme de droit public (i.e., a corporation organized under public law). The Canton of Vaud is BCV's majority shareholder, with 66.95% of the share capital. BCV is listed in the Vaud Commercial Register and is subject to all applicable legislation. BCV's legal status is defined in the Cantonal Act Governing the Organization of Banque Cantonale Vaudoise (LBCV) of 20 June 1995, as amended on 25 June 2002 and 30 January 2007. BCV's commitments are not underwritten by the Canton, although a limited cantonal guarantee applies to deposits with Caisse d'Épargne Cantonale Vaudoise, a savings institution managed by the Bank.

Our core businesses

With revenues of CHF 976m in 2009 and total assets of CHF 35.7bn, we rank among Switzerland's top five banks by assets. BCV is the country's second-largest cantonal bank, employing 2,126 people. Our four core business areas are: retail banking, with a network of 68 staffed branches and 180 ATMs throughout the Canton of Vaud; wealth management for both private and institutional clients; corporate banking; and trading. We offer a comprehensive range of financial services to all client segments. BCV Group comprises six subsidiaries: a small private bank, three fund management/administration firms and two service companies.

Our missions

Pursuant to Article 4 of the amended LBCV, which took effect on 1 April 2007, BCV's corporate mandate is to offer a comprehensive range of banking services to the local community and to contribute to the development of all sectors of the Vaud economy and to the financing of the Canton's public-sector institutions and entities. Also, as part of our community focus, we provide mortgage financing in Vaud. The amended law also stipulates that BCV is to be guided by the principles of economically, environmentally and socially sustainable development. More generally, our missions are to create value for our shareholders and clients, to be a benchmark employer, and to be a good corporate citizen.

Our strategy

At the end of 2008, we modified our strategy in order to focus our efforts on our front lines and generate organic growth in our core markets. Management decided that the best way to ensure profitable growth going forward is the business model of a universal bank with solid local roots. Through our new strategy, *BCVPlus*, we intend to

strengthen our position as a full-service bank in the Vaud region and be recognized as a leading financial institution in Switzerland, particularly for private and institutional asset management.

With *BCVPlus*, we are targeting:

- renewed impetus in retail banking, particularly mortgage lending, by improving front-line execution and overall sales-support efficiency while tapping into the potential inherent in our large client base;
- growth in private wealth management, primarily in Vaud, and institutional asset management both within Vaud Canton and elsewhere in Switzerland;
- a greater role for SME-related activities;
- enhanced volumes and profitability in the Trade Finance and Large Corporates business lines, in accordance with the Bank's risk profile;
- a significant reduction in proprietary risk-taking in trading activities, which will now center on customer-driven business volumes, following our withdrawal from the equity-derivative trading business line.

Management is convinced that quality of execution is a key factor in setting ourselves apart from the competition and driving our success. With this in mind, we launched a series of internal initiatives in 2009 to simplify processes, develop our employees' skill sets, improve customer service and revitalize our sales and marketing approach.

The Group aims to achieve sustainable growth, with revenues expanding by 4-5% and operating profit by 5-8% per year. The long-term targets are 13-14% for ROE, 57-59% for cost/income and 13% for the Tier 1 capital ratio. These strategic objectives should be viewed from a multi-year perspective.

In the coming years, the Bank intends to pay a stable ordinary dividend, which may rise gradually within a range of CHF 20 to CHF 25 per share, depending on business growth. Furthermore, it will optimize equity by making an additional annual distribution of CHF 10 per share. As announced at the end of 2008, the Bank plans to maintain this distribution level for the next four to five years barring any significant changes in the economic or regulatory environment.

Our vision for BCV is informed by two of our core values: close ties to our customers and professionalism in our staff. These values guide us in the pursuit of our ultimate goal of creating value for clients, shareholders and employees.

2009 highlights

BCV turned in a very solid performance despite the challenging economic environment:

- Business volumes were sharply up.
- Operating profit climbed 11% to CHF 470m.
- The need for new provisions was moderate, confirming the quality of our loan book.
- At over CHF 300m, net profit remained strong.

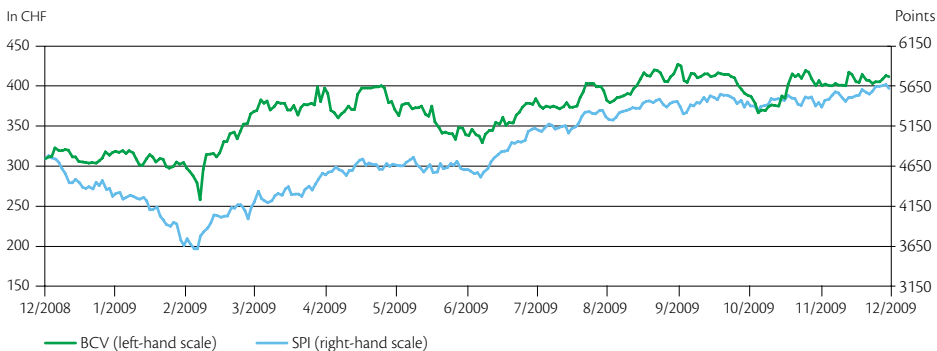

We began to implement our new strategy, BCVPlus:

- We changed our organization and appointed three new members to our Executive Board.
- We significantly reduced proprietary risk-taking in trading activities, in part by withdrawing from equity-derivative trading.
- We launched a series of multi-year strategic initiatives aimed at streamlining our operations, enhancing efficiency and improving the quality of our customer service.

We pursued our capital-management strategy through a CHF 172m dividend and a CHF 86m par-value reduction, returning a total of CHF 258m to shareholders.
